

engine/src/core/event.h

```
graph BT; A[engine/src/core/application.c] --> C[engine/src/core/event.h]; B[engine/src/core/event.c] --> C;
```

A diagram illustrating file dependencies. At the top is a gray box labeled 'engine/src/core/event.h'. Below it are two white boxes: 'engine/src/core/application.c' on the left and 'engine/src/core/event.c' on the right. Two blue arrows point from the top of each white box to the bottom of the gray box, indicating that both source files include the header file.
